starex®

starex® is the Styrene product brand of Samsung Cheil Industries, representing the company's efforts to put together customer-centered technologies and know-how.

starex® covers the Styrene product groups such as ABS, ASA, EPS, SAN, while offering high-functionality choices through various lineups.

Product Portfolio

starex® ABS

starex® ABS is a practical material and that has great workability, high impact, and high modulus characteristics, as well as excellent colorability and gloss. starex® ABS maintains superb resistance to impact across a wide range of temperatures, as well as tensile strength, rigidity, and heat resistance.

starex® ABS Alloy

starex® ABS Alloy is an advanced high performance resin such as extreme transparent ABS, non-painting resin Luminous, eco-friendly PCM based materials and ABS/GF. Samsung Cheil Industries has differentiated product portfolio of ABS resin.

starex® ASA

starex® ASA is a high weatherable resin having superior chemical stability, while maintaining excellent glossiness, moldability, and mechanical properties of ABS resin. The starex® ASA is suitable for exterior materials because it does not discolor under UV exposure over a long time and its physical properties do not change much.

starex®

General Purpose ABS

starex® ABS, composed of AN, BD and SM, has excellent impact strength, chemical resistance and dimensional stability, and is applicable to various products such as electrical and electronic devices, stationery and toys.

KEY FEATURES

- Excellent balance of properties
- High gloss, excellent heat stability
- Good processability suitable for various applications

starex®

Extrusion ABS

starex® Extrusion ABS is most suitable for refrigerator liners and construction components. The plastic has good sheet extrusion stability, chemical resistance and vacuum moldability. starex® extrusion ABS for refrigerators especially is the world-class product with the biggest global market share.

KEY FEATURES

- Easy vacuum molding
- Outstanding impact strength and tensile strength
- Excellent chemical resistance & crack resistance

APPLICATIONS

- Refrigerator
- Construction & Pipe

Flame Retardant ABS

In addition to the typical features of general purpose ABS mentioned above, starex® Flame Retardant ABS is specially formulated to have the self-extinguishability making it much safer for the use in the electrical & electronic applications complying with the UL 94 regulations, the most widely accepted fire safety standards.

starex® Flame Retardant ABS is take its lead in the global market thanks to its excellent balance of mechanical properties and processability.

KEY FEATURES

- High heat stability and good processability
- Excellent colorability
- Well Balanced physical properties

starex®

Heat Resistant ABS

Although general purpose ABS has mechanical properties good enough for the practical use in terms of processability, impact strength, etc, its use is sometimes limited at high temperature due to the deformation of its molded products by heat.

starex® High Heat Resistant ABS offers an attractive alternative to general purpose ABS and other engineering plastics making it suitable for the applications designed for the use at high temperature.

KEY FEATURES

- Low TVOC
- Chemical resistance
- High heat resistance & high flow

APPLICATIONS

- Automotive interior: Cockpit module parts, Power window, Switch panel, Pull handle, Console

Metal Plating/Painting ABS

In general, ABS is a suitable material for metal plating. In consideration of better productivity, however, the material should be more easily etched and have better adhesion strength. starex® Metal Plating ABS generates uniform anchor holes during the etching process and has excellent adhesion strength making it possible to achieve higher productivity and lower metal plating rejections.

KEY FEATURES

Metal Plating ABS

- High adhesion strength
- Excellent appearance
- Chemical resistance & dimensional stability

Painting ABS

- Chemical resistance
- Painting uniformity
- Excellent painting appearance

APPLICATIONS

Metal Plating ABS

- Automotive exterior: Radiator grille, Rear garnish, Emblem, Outside mirror, Door handle
- TV: Stand base

Transparent ABS (TRANEX)

starex® Transparent ABS is deliberately formulated to have an excellent balance of transparency, mechanical properties, and processability, making it suitable for the applications such as electrical and electronic parts, OA machines, and toys that need both transparency and good mechanical properties.

KEY FEATURES

- Super clear transparency
- Excellent color consistency and stability
- Well-balanced properties

APPLICATIONS

- Washing machine: Top cover
- Vacuum cleaner: Dust box
- TV frame
- Miscellaneous: Toy, Dispenser, Food containers

Scratch Resistant MABS

starex® MABS(ABS/PMMA) has excellent processability and high impact strength as well as scratch resistance and excellent coloring property originated from PMMA. starex® MABS offers deeps color effect without painting. Its superior surface quality makes it suitable for the exterior parts of electrical and electronic devices.

Samsung Cheil Industries is taking the lead in the scratch-resistance materials market for TV housing.

KEY FEATURES

- Pencil scratch resistant: H or higher
- Excellent surface gloss
- No need to coat: Cost reduction, environment-friendly
- Good chemical resistance to especially IPA and ethanol

starex®

High Impact Strength ABS/GF

starex® ABS/GF, glass fiber reinforced ABS, features excellent flexural modulus, heat resistance, and dimensional stability. starex® ABS/GF is applicable to frames and precision parts that require high flexural modulus and dimensional stability.

KEY FEATURES

- High impact strength and heat resistance
- Low changes in the mechanical property over a wide temperature range
- Dimensional stability

Weather Resistant ASA (WEATHEX)

starex® WEATHEX is Samsung Cheil Industries' new weather resistant ASA. WX series has both superior weatherability and impact resistance. It also has outstanding color fastness and gloss retention, as well as dimensional stability. Thus it can be used for various outdoor applications such as automotive, construction materials, ships, and leisure products.

KEY FEATURES

- Excellent weatherability
- Superior impact strength
- Color fastness and gloss retention

starex® Luminous

Luminous is a metallic-look resin that offers the appearance of painted surface without painting process, making it possible to reduce the manufacturing cost considerably by removing the time-consuming and costly painting process and also making the process environmentally friendly by removing the use of solvents.

KEY FEATURES

- Fine exterior: Metallic-look without painting
- Eco-friendly process: Cost reduction through process simplification, Recyclability (No painting), Eco-friendly manufacturing process (No solvent use)
- A wide range of various visual effects are available

APPLICATIONS

- Refrigerator: Home bar, Dispenser, Door cap
- Vacuum cleaner: Dust cover, Cover control, Hand grip
- Washing machine: Top cover, LID, Control panel, Detergent drawer panel

starex® PCM based ABS/PET

Recycling PET bottles, Samsung Cheil Industries has developed PCM-based (Post-Consumer Materials) environmentally friendly material applicable to automotive parts, exteriors of monitor and OA machines, etc. It is designed to better help comply with the environment regulations such as EPEAT in the United States. Recycling 1MT of PET bottles is known to save as many as 427 fir trees.

KEY FEATURES

- Easier to comply with eco-certifications (EPEAT Gold & TCO Edge)
- Reduction of CO₂ emission
